SIDEMOUNT DIVER

DIVE IN A NEW CONFIGURATION

A sidemount configuration (scuba tanks alongside of the diver) offers more flexibility and better streamlining options. Learn about the many benefits of diving with a sidemount configuration.

During 3 dives, you'll learn how to:

- Properly assemble and configure sidemount equipment.
- Trim your weight system and gear so you're perfectly balanced in the water.
- Manage gas by switching second stages as planned.

Course Duration: 2 days

Cost: Aquatic Adventures' Sidemount Diver Specialty course is **$550**/person*.
